Part of a complete injury management approach

- Easy to read, step-by-step illustrated instructions.
- Color- and icon-coded instruction cards for rapid identification.
- 22-page color-coded guidebook with instructions for 31 different first aid/medical emergencies.
- Gives confidence to manage common injuries during the first few critical minutes — helps you help others until professional help arrives.
- Easily integrates into existing first aid training programs.
- Re-supply is as easy as ordering a new pack — inventory management easy and cost-effective
- No over-the-counter medications
